**Credential:** Certificate

**Delivery:** Part-time - online

**Duration:** 252 Hours

**Effective:** Fall 2023, Winter 2024, Summer 2024

**Location:** Orillia

## Description

This program will offer professionals with current related experience an opportunity to gain valuable professional development in a convenient and flexible online format. Participants in this program will gain knowledge to assist their work with infants, children or adolescents with mental health challenges. Courses will focus on the developmental process, understanding mental health and associated behaviors, risk factors and triggers, the identification of behaviors and symptoms, family relationships, and intervention and prevention strategies.

## Career Opportunities

This program is designed to assist professionals and parents who are currently working with infant, child and adolescent populations who present with potential mental health challenges. Graduates of this program may enhance career opportunities in fields such as Care Givers, Early Childhood Educators, Educational Assistants, Social Service Workers, Therapeutic Recreation Workers, Youth and Justice Professionals, Recreation and Leisure Workers, Occupational Therapy Assistants and Physiotherapist Assistants, Personal Support Workers, Registered Practical Nurses and Registered Nurses.

## Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

1. explain cognitive and behavioural signs and symptoms and their continuous effect and influence on the behaviour and mental health of the infant, child and adolescent;
2. develop and implement basic strategies to effectively manage the common symptoms of mental health conditions seen in infant, child and adolescent populations;
3. prepare a basic needs' assessment of trauma, grief, loss and/or psychiatric disorder for an infant, child or youth in crisis;
4. identify the stages of growth and development as well as basic needs for infants, children and adolescents with an emphasis on the critical periods in personality development;
5. identify social role structure issues and their potential positive and negative influence on growth and development;
6. explain preventative measures that promote the mental health and well-being of children and youth in their communities.
