

PRE-APPRENTICESHIP - CONSTRUCTION TECHNOLOGY

Program: PACT

Credential: Recognition of Achievement

Delivery: Full-time

Work Integrated Learning: 1 Work Placement

Length: 2 Semesters

Duration: 1 Year

Effective: Summer 2026

Location: Midland

Description

Students receive an introduction to basic general carpentry as well as exposure to the plumbing and electrical trades. Students obtain a number of industry-specific certifications with a focus on career development in order to become a successful candidate for apprenticeship. A 12-week paid work placement follows the in-school training portion.

Career Opportunities

This program provides graduates with a pathway to a range of occupations in fields such as:

- residential, commercial or industrial construction
- carpentry apprenticeship
- electrical apprenticeship
- plumbing apprenticeship
- entrepreneurship

Program Learning Outcomes

The graduate has reliably demonstrated the ability to:

1. apply mathematical and computer skills to construction related problems;
2. complete basic carpentry, electrical and plumbing tasks based on theory and practical skills;
3. apply the principles of drafting in the creation of drawings;
4. perform workplace practices and safety procedures in accordance with the Occupational Health and Safety Act Construction Regulations;
5. use job search strategies and communication skills to explore careers in the trades;
6. select and safely operate hand and power tools and equipment used in building construction;
7. assist skilled tradespersons and perform construction-related tasks at jobsites.

Admission Requirements

Applicants must be 16 years of age or older, a Canadian citizen or landed immigrant and not already registered as an apprentice.

Selection Process

- applicants must attend a program information session
- applicants must demonstrate the ability to do, or be able to acquire, the necessary reading, writing and trade related math skills
- applicants must demonstrate a commitment to working in the construction industry
- applicants will be interviewed

Additional Information

Students will be required to complete an intake assessment which will be utilized to determine functional grade level competency prior to academic programming.

Graduation Requirements

5 Program Courses

6 Trade Tickets

1 Work Placement

Graduation Eligibility

Students must successfully complete all required courses as noted below. Further details, if applicable, are noted under "Additional Information" above.
